

BARANG ANEH

A special collection of unique Asian artifacts

Welcome to the BARANG ANEH COLLECTION. This is a museum-quality collection of 19th and early 20th century Indonesian antique furniture, architectural pieces and heirlooms of Javanese, Chinese, Arts and Crafts and Art Deco styles and periods.

The collection was built by BARANG ANEH owner/collector Antonia Hardy while living on the Indonesian island of Java in the 1990s, and is still mostly with her family. It is being offered for sale for the very first time. We would love to talk and meet with you to share our passion about a secure future home for the collection.
